Name and Title of Executive or Official Certifying Application:

Name: _____ Title:

PART II - CERTIFICATION

In accordance with the Municipality of Penn Hills Industrial Sewer Use Ordinance, the undersigned hereby requests an Industrial Waste Discharge Permit to discharge industrial wastes or other non-domestic wastewater to the Penn Hills sewer system. In consideration of the granting of such a permit the undersigned hereby agrees:

1. To pay the initial permit application fee of \$500 to Penn Hills and to reimburse Penn Hills for any reasonable engineering, legal and administrative costs in excess of \$500 associated with the evaluation of this permit application and the preparation of any permit issued for the proposed discharge.

PART II - CERTIFICATION (Continued)

2. To conduct any wastewater sampling and screening analyses of the proposed industrial and/or non-domestic waste discharge that may be required by Penn Hills to evaluate this permit application at no cost to Penn Hills, during the term of the application to provide laboratory data, sampling and screening as requested by Penn Hills at no cost to Penn Hills.
3. To furnish any additional information relative to the proposed industrial or non-domestic waste discharge for which a permit is sought that may be requested by Penn Hills.
4. To accept and abide by the provisions of the Industrial Sewer Use Ordinance adopted by Penn Hills and any other pertinent regulations and/or local municipal ordinances that may be adopted in the future, and to pay for sewage treatment in accordance with the industrial waste rate and as amended in the future.
5. To pay any surcharges for high strength waste discharges, if applicable, pursuant to the Penn Hills Industrial Sewer Use Ordinance and any other fees deemed necessary by Penn Hills to carry out the requirements of its pretreatment program.
6. To provide, construct, operate and maintain any pretreatment facilities which may be required by Penn Hills as a condition of accepting the proposed industrial or non-domestic waste discharge in an efficient manner at all times during the term of the Application, and at no expense to Penn Hills.
7. To cooperate at all times with Penn Hills and its representatives in the inspection, sampling and/or evaluation of the industrial or non-domestic waste discharge proposed by this application and any facilities provided for the pretreatment of the proposed discharge.
8. To notify Penn Hills immediately in the event of any accident or other circumstances that may result in the discharge into the sewer system of any wastes or pollutants prohibited by the Penn Hills Industrial Sewer Use Ordinance, or any changes or other modifications that may result in the discharge of any wastewater or pollutants significantly different than the waste characteristics described in this permit application.
9. To install, provide, repair, maintain and/or replace a flow meter device capable of relaying information to Penn Hills, and approved by the Penn Hills Water Pollution Control Department, of all flow entering the Penn Hills sewer system.
10. To be responsible for any local, county, state and/or Federal violations or claims and requests made by regulatory agencies, as a result of the undersigned's sewage

service, and to hold Penn Hills harmless of any fines, costs, salaries and/or professional fees incurred as a result thereof.

11. This Application may be terminated by Penn Hills with thirty (30) days' written notice as a result of a default or breach of this Application.
12. This Application is for a twelve (12) month term and must be renewed annually.

Based on my personal inquiry of those individuals directly responsible for obtaining the information reported herein, the undersigned hereby certifies that the information provided in this permit application is familiar to me and that to the best of my knowledge, information and belief, the information is a true, complete and accurate description of our facility and proposed industrial and/or non-domestic wastewater discharge(s).
